Rushville, Indiana, Thursday Evening, Sept. 10, 1914.

Single Copies, 2 Cents.

## ALLIES FORCE ENEMY BACK AT EVERY POINT ALONG THE LINE

**Paris Defense Armies Rush to Assistance of Those at Front and Push Germans Across Marne.**

**BEING DRIVEN NORTHWARD**

**British Force Recently Landed Reported to Have Attacked German Lines of Communication.**

**FRENCH CENTER ADVANCING**

**German Reinforcements Arrive and it is Apparent They Will Try to Regain Lost Ground.**

### BULLETINS.

(By United Press.)

London, Sept. 10.—The Russian menace toward Berlin is now very real. Officers here firmly believe that the enormous Russian army has already started for Berlin and that even though the Germans should withdraw their active army from French soil and begin a defensive campaign on both frontiers, the movement would come too late to hold the Russians.

(By United Press.)

Paris, Sept. 10.—"The allies are forcing the enemy back at every point along the line," General Gallieni announced this afternoon. That was the only official information forthcoming today of the outcome of what is generally expected to prove the decisive battle of the present war so far as France is concerned. The Germans are hard pressed. The French-British northern army now has the Paris defense armies assisting it, the necessity for completely manning the forts of Paris having passed.

The German right wing under General Von Kluck has suffered greatly. It bore the brunt of the fighting all the way from the Belgian borders and the attempt to reinforce it from General Von Beulow's forces failed.

As a result the Germans have been pushed across the Marne and are now being driven due north toward Belgium. At the same time it is believed another British force recently landed has raised the German lines of communication and is now essaying a flank attack in force.

General Gallieni declares that the French center is also advancing. The great German assault in force designed to crush it has failed, he said, and the French are everywhere on the offensive. The war office failed to make any announcement of the positions of the warring armies at 3:30 as usual or to tell anything about the field of operations but it was expected that a complete statement would be made tonight.

German reinforcements have arrived at the German Centre and right and it was reported today that the kaiser's forces are making a desperate effort to recover their lost ground. The main effort as on each day of the battle up to the present, has been directed against the centre. Over the stretch of fifty miles between Vitry-Le-Francis and Montmariel, the fighting is unusually severe but General Gallieni insists that the French lines are holding. The British-French left has been heavily reinforced by the troops withdrawn from the defenses of Paris who are not needed here at the present time.

## RUSSIANS TAKE 12,000 CAPTIVE

**General Rouzsky Sends Message Today That Part of Sixth Austrian Corps is Captured**

**31 GUNS AND 150 OFFICERS**

**Heavily Reinforced by Germans, Austrians are Now Giving Battle to Czar's Troops**

(By United Press.)

Petrograd, Sept. 10.—Fighting with the Austrian armies of Generals Von Auffenberg and Dankl has again been resumed. Following their decisive defeat at Rawa Ruska they have been heavily reinforced by German troops and are now fighting along a line west of Rawa Ruska extending southwest through Sadowa to a point near the Dneister river.

The brunt of the fighting is reported here to have been borne by the Fourteenth Austrian army corps which was brought from Alsace to reinforce the main Austrian army. The official reports received from General Rouzsky say this corps lost heavily in yesterday's fighting and that one of its battle standards, two cannon and 500 prisoners were taken.

According to the chiefs at the war office, the Austrians have lost fully one-quarter of their effective strength in the fighting which resulted in their being driven from Russian Poland. The plan to round them up and capture or annihilate them failed through the arrival of strong German re-inforcements from the western theatre of fighting, supported by a large number of rapid-fires and field artillery.

It is stated, however, that the Austrians are constantly retreating and that additional Russian re-inforcements are being sent to General Rouzsky to enable him to continue his offensive. The army of General Brussaloff which is moving westward from Lemberg is co-operating with that of General Rouzsky according to the latest information obtainable from war office.

A later dispatch from General Rouzsky declares he has captured 12,000 Austrians with 31 guns and 150 officers, including the general commanding the Austrian fifteenth division in the fighting at Rawa Ruska. The troops captured were a part of the sixth army corps.

The Russian investment of Prezemyl continues. The Russians are shelling the fortified Austrian positions from the Eastward but up to the present no attempt has been made to take the Austrian position by storm and the bombardment will continue until reinforcements now enroute reach the scene.

### HOBBS ARRESTED.

Bert Hobbs, a young man living northeast of the city, was arrested today in connection with the fraudulent marriage proceedings brought against him by his wife, Oma Hobbs. He was not released on bond. Hobbs married his wife only after proceedings had been filed by her and then did not live with her, the authorities were told.

A marriage license was issued today to Miss Lorraine M. Lowe and John C. Alpha, both of this county.

## STARTS PEACE PROGRAM

**Pope Benedict Sends Messages to all Warring Nations.**

(By United Press.)

Rome, Sept. 10.—As a prelude to a definite program which the Vatican is about to begin in the interests of peace between the allies and Austria and Germany, Pope Benedict today dispatched notes to the ambassadors of all warring nations to ascertain the sentiments of their respective governments relative to a plan for a papal appeal for peace. It is confidently believed here that Austria's reply will be favorable to Pope Benedict's program.

## SUBMARINE SUNK THE PATHFINDER

**Admission by British War Bureau of This Fact Alarms London Because of Aggressiveness.**

### VESSEL NEAR SCOTCH PORT

(By United Press.)

London, Sept. 10.—The official war bureau admitted this afternoon that the British cruiser Pathfinder, which was sunk last Saturday off the coast of Scotland, was destroyed by a German submarine and not by a contact mine as was at first reported.

The admission of the act of German aggression caused a distinct surprise in naval circles.

This is the first time in the history of naval warfare that a submarine has been used so successfully.

The fact that the Germans were able to send a submarine to strike a British cruiser almost in a Scotch port has greatly alarmed London.

## AUSTRIA LOSES A FOURTH OF FIGHTERS

**Announcement Today of Loss of 120,000 Men Throws Dual Empire Into Deep Gloom.**

### ARCHDUKE AT THE FRONT

(By United Press.)

Vienna, via Rome, Sept. 10.—All Austria was plunged into gloom today when official admission was made here that the recent operations against the Russians have cost the dual empire one fourth of her first line of effective fighting men. Simultaneously it became known for the first time that the operations in Galicia and Russian Poland have been under the personal direction of the Archduke Francis Frederick.

The announcement at the war office stated that since the operations against Russia began, the total losses in killed, wounded and missing of the Austrian first line army totals the enormous number of 120,000 men. In addition by reason of the attack by an overwhelming number of Russians who have outnumbered the Austrians at all times, large quantities of military stores, ammunition and cannon have been lost.

The arch duke Francis Frederick of Austria is a cousin of Emperor Francis Joseph and succeeded the late Archduke Francis Ferdinand, whose assassination is in reality responsible for the war, as inspector general of the Austrian-Hungarian armies.

## DOGBITING THREE CHILDREN RABID

**Two Sons and Daughter of Mr. and Mrs. F. S. Richardson of Orange Taken to Indianapolis Today**

### CANINE'S HEAD EXAMINED

**When Word of Result is Received Arrangements are Promptly Made to Take Pasteur Treatment**

Three children of Mr. and Mrs. F. S. Richardson, living south of Orange, were taken to Indianapolis this morning where they will receive the Pasteur treatment. A collie dog, believed to have been owned by John Manzy, of near Manzy, bit the children Tuesday evening. Two of the children were seriously hurt and the other suffered slight wounds. Alden the son, suffered the worst. The dog leaped up past his right shoulder and buried its teeth in his right cheek and ear lobe. Vera, the older daughter, and her little sister Georgia, were bitten in trying to aid their brother.

The head of the dog was sent to Indianapolis and word received last night stated that it was rabid and that the children should take the treatment to be on the safe side. The dog was a strange one in this neighborhood and since the dog belonging to John Manzy disappeared from home Sunday evening the people there are led to believe that it was his dog.

When the dog first appeared at the Richardson home it seemed friendly and the attack on the children was very sudden. It leaped at Alden without a moments warning. The children succeeded in fighting the dog off and ran into the house. Neighbors were attracted by their shouts and the dog was killed. The head was immediately sent to the state chemist in Indianapolis for analysis and the report was received last night in a message to Mr. Richardson.

The children met the dog while on the way home from school. This is the first mad dog scare in or near Orange since last winter, when a dog, which was undoubtedly mad attacked several horses belonging to Warren B. Murray. Because of the scare there now all dogs will be watched closely until all danger is past. The Pasteur treatment requires twenty-one days and it will not be until then that the children will be out of danger.

## REVIVAL AT HEIDELBERG

**Rev. J. B. Meacham Back From Kentucky Where he Held Meeting.**

The Rev. J. B. Meacham, pastor of the First Presbyterian church, has returned from Heidelberg, Ky., where he conducted a revival meeting from August 9 to August 24. There were twenty-six conversions during the meeting and eighteen Christians were awakened to take their old church connections to churches at Heidelberg. Of the total number converted and putting their letters into churches in Heidelberg, eighteen joined the Christian church by faith and seventeen by letter, eight the Christian church by confessing and one by letter.

Miss Caroline Ward, daughter Mr. and Mrs. Len Ward, of Jackson township, will undergo an operation at the Sexton Sanitorium, this week, for an ulcerated stomach.

## WILL HOLD HOMECOMING

**Little Blue River Plans Big Meeting For Next Sunday.**

The Little Blue River Friend's church will have a home coming Sunday and the members are planning for a big time. Invitations have been sent broadcast to all former residents of that vicinity and the committee in charge is expecting a general gathering of old friends and acquaintances. A number of former pastors have been especially invited to come, some having consented, and will participate in the program. A basket dinner will be served at the noon hour in which all are invited to partake. A general invitation is extended to every one to attend.

## FIFTY-SECOND HOLDS REUNION

**Survivors of Civil War Regiment, Many of Whom Were From Rush County, Meet.**

### NINE LEFT IN THIS COUNTY

The annual reunion of the Fifty-second Indiana regiment of the civil war, which was recruited in Rush county and vicinity, was held at the court house in Indianapolis yesterday. There are only thirty-five or forty members of the regiment left. There were two companies of the Fifty-second which saw service throughout the war. The members of the regiment entered the service in 1861 near the opening of the war and were mustered out September 10, 1865. All of the survivors are growing old and each year the ranks grow thinner. The reunions are always held at the Marion county court house Wednesday of fair week.

There are nine members of the regiment now living in Rush county.

They are: Col. E. H. Wolfe, W. S. Conde, Alfred Pearsey, Smith Carney, Patrick McLaughlin and Jabez Smith, all of this city; Rastus McDougal of Posey township; Sam Shepherd of Arlington and Melvin Brooks of Orange. All members were present except McDougal, Carney and McLaughlin.

## WANTS INJUNCTION TO STOP BUILDING

**Rushville National Bank Complains Roofing of Open Court Adjoining Store Would Injure Room.**

### RESTRANDING ORDER ISSUED

The Rushville National bank has filed an injunction suit against William Helm, trustee, Frank Cutter, Fred Cutter, Florence Cutter, Edward Walker and Albert L. Aldridge asking that they be restrained from building a roof over an open court adjoining the bank building in the rear of the property owned by Mr. Helm and the Cutters.

The complaint states that the placing of a roof over the court would permanently injure the room in the bank building used for a directors room. It is alleged that the defendants are attaching supports to the bank building in covering up the open court. A temporary restraining order was issued by Judge Megee.

## WEATHER

Cloudy tonight and Friday, probably showers; slightly warmer tonight.

## COMMISSION TO HOLD HEARINGS

**Rushville and Carthage in List of Cities for Meeting Arranged in Indianapolis**

### REGARDS LABOR CONDITIONS

**Effort is Being Made to Learn Facts About Problems Confronting Working Classes**

The Commission which was appointed by Governor Ralston under the provisions of chapter 262, Laws of 1913, to investigate the subject of the hours and conditions of labor of woman in Indiana will hold public hearings at Indianapolis Friday and Saturday September 25th and 26th at 2 P. M. and at 7:30 P. M. in the Chamber of House of Representatives, State House.

The Commission desires to learn about the problem which confronts it from every point of view in order that its recommendations for legislation may be wise and constructive.

It is the hope that all citizens who are interested will attend the meetings and give their views on any phase of the problem which they consider important.

The following cities are in the Indianapolis group—Indianapolis, Alexandria, Anderson, Aurora, Bainbridge, Bloomington, Carthage, Columbus, Edinburg, Greensburg, Greenfield, Greendale, Greenwood, Sheridan, Batesville, Lawrenceburg, Lebanon, Martinsville, Mooresville, Noblesville, Knightstown, Rushville, and Greencastle.

The public hearings as required by law will be held in Fort Wayne, September 14th, Peru, September 15th, Hammond, Sept. 16th, South Bend, September 17th, Lafayette, September 18th, Richmond, September 21st, New Albany, September 22nd, Evansville, September 23rd, Terre Haute, September 24th, Indianapolis, September 25th and 26th.

There will be an afternoon and evening session in each city that there may be an opportunity for everyone who is interested to attend the meetings.

### DENIAL FROM FRENCH.

(By United Press.)

Bordeaux, Sept. 10.—The French foreign office today issued an emphatic denial that French troops have used explosive bullets or that any has been found on French soldiers or at the French fortress of Longwy.

### Quick Mobilization

One of the military marvels in the European crisis was the quick mobilization of great bodies of troops.

There is a lesson in that for the aggressive business man.

Newspaper advertising is superior to any other medium because of its quick attack.

There are no long waits between preparation of copy and publication.

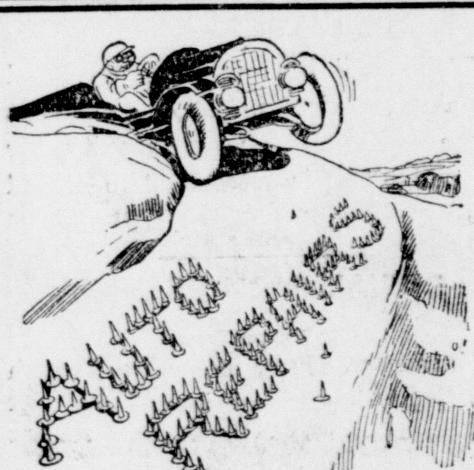

A message can be printed when the news is fresh and the time is ripe.

Such a message has double force—and results are immediate.

Advertisers are finding by experience that newspaper advertising produces greater results at less cost than any other form of publicity.

—Miss Alleine Budd has left for Baltimore, Maryland, where she will enter Goucher college. She will stop off in Washington, D. C., for a week's visit before entering school.

## ALLIES FORCE ENEMY BACK ALL ALONG BATTLE LINE

Continued from Page 1.

nigh exhausted with their efforts of the last fortnight. Even their fresh troops now arriving from the rear are declared to fail to display the spirit of the earlier conflicts. They are also admittedly having trouble bringing up supplies of rifle and heavy artillery ammunition.

The reports persist here that an extremely strong expedition has been pushed forward from Ostend and that the German lines of communication are seriously threatened. It is stated that the retreat of the German right beyond the Ourcq and the Marne rivers was entirely due to this surprise although at what point the flanking attack was delivered is not known here.

## MAY INDICT WOMAN AGAIN

Probable Grand Jury Will Charge Florence Carman With Murder.

(By United Press.)

New York, Sept. 10.—Before the Nassau county grand jury adjourns today, it was expected to return a new indictment against Mrs. Florence Carman, already under indictment for manslaughter, in connection with the mysterious shooting of Mrs. Louise Bailey in the office of Dr. Edwin Carman, at Freeport, last spring.

District Attorney Smith, since the manslaughter indictment has asked the grand jury to report a second true bill which would supersede the manslaughter charge.

## TO BE EFFECTIVE IN 10 DAYS

(By United Press.)

Washington, Sept. 10.—The interstate commerce commission today issued an order authorizing the railroads in central freight association territory which includes Indiana to put into effect within ten days the increase in freight rates granted by the decision of July 29. This is an advance of twenty days. Today's action accepts grains. The increase is five per cent, on practically all kinds of freight.

## FOTCHA HAS BEEN TAKEN

(By United Press.)

Cettinje, Sept. 10.—The Montenegrin army, under command of Minister of War Wuotich, which is marching against Serajevo has occupied the important Bosnian city of Fotcha. It is stated that there has been no serious opposition encountered so far.

General Wuotich will move rapidly against Serajevo where he is expected to be joined by a Servian column. Every effort is being made by the Servian and Montenegrin agents to cause a revolution in Bosnia but so far without success.

## ALLIES SUCCESS IS CONTINUING

London War Office Says This Afternoon General French Has Taken Many Prisoners.

### GERMANS REPORTED WORN

General Smith-Dorrien is Given Credit For Bringing Victory to Allies After Retreats.

(By United Press.)

London, Sept. 10.—The war office announced this afternoon that the allied successes in France continue. It said:

"The Germans are retreating all along the line. The British have crossed the Marne in a northerly direction. The Germans have lost heavily and General French reports that he has taken many prisoners. The German troops are reported as utterly exhausted by their efforts."

News from the battle front in France today states emphatically that the success of the allies is continued. It is stated that the latest attempt of the Germans to force the French center has failed and that the British-French forces are driving the German right far above it with the heaviest of losses.

General Smith-Dorrien is the hero of the occasion. His praises are on every British official's tongue. That the present offensive of the allies is possible is admittedly due to his efforts. With his small corps he for two days withstood an overwhelming force of Germans making possible the saving of the entire left wing of the allied army.

The official report of General French made public in the Gazette last night only touched on this but the official reports dealing with the details of the campaign, which cannot be published in their entirety at this time, emphasize the fact. It is stated that for two days, August 26 to 28, Dorrien's troops were almost completely surrounded by Germans five times their number but that they held their positions until the entire left wing of the allies succeeded in reaching new positions selected and were fully entrenched.

The British aviation corps is also admittedly covering itself with glory. The present successful movement of the British-French left, which is driving General Von Kluck's army far before it, is declared to be due to the excellent reports of the air scouts who locate massed troops and artillery and generally furnish information which permits the weakest spots on the German lines to be assailed.

"THE HONOR OF THE LAW"

## RE-OCCUPYING UPPER ALSACE

Since Withdrawal of German Troops to Near Belfort, French Troops Are Back in Force.

### SITUATION SATISFACTORY

(By United Press.)

Bordeaux, Sept. 10.—That the French are re-occupying all of Upper Alsace was admitted at the war office today. It was stated that as the result of the withdrawal of the German forces from the territory to the eastward of Belfort, French troops from Bensano have crossed the frontier near Belfort and now are moving to re-occupy the territory from which they were driven a week ago. The Germans are reported to be retiring beyond Mulhausen and are acting entirely on the defensive. Because of this it is believed that there are only a very few Germans left in Upper Alsace and that it will be possible for the French to re-occupy all of the territory and then to co-operate with the forces which are fighting all along the Lorraine frontier.

The war office was well satisfied with the general situation today. Minister of War Millerand held a long conference with the president. Later he expressed the hope that the stay of the German government here would prove a very short one. It is already considered certain that if the Germans are defeated in the battle now in progress along the territory from the northeast of Paris in a semi-circle to Verdun, that they will be driven far to the northward and that it will be possible for the government to return to Paris. It is declared that General Joffre believes that the high tide of the German off-

fenses has been passed and that from now on it will continue to ebb.

## Richland Township Convention.

The Republicans of Richland township will meet at Butler's school house Saturday, September 12 at ten a. m. to nominate a township ticket.

AUGUST MILLER,  
Committeeman.

## Always Among Us.

A financial crisis, with the Democrats in power in Indiana, is ever with us. It is always hovering about some place near the state house. The state auditor admits it. No one knows exactly what the conditions of the state treasury is. The auditor will go only so far. He says Indiana will need some more money this month, but there is "no doubt" but that the state can borrow all she needs.

The state board of finance borrowed \$400,000 from the Fletcher-American National Bank, last month, after divers attempts to obtain a less amount a week or two before. Mr. O'Brien said, today, that it was impossible for him to estimate how much the state would need to borrow this month, which marks the close of the fiscal year.

Mr. O'Brien was asked how much he thought the state would need to borrow and he replied that the state officials now are "going over" the unexpended appropriations made by the last legislature, to see how much money must be raised to meet expenses at the close of the fiscal year, September 30.

When asked which fund probably

**School Suits**

**Send the Boy to School this Fall in a new Suit! It will make his young heart glad!**

We certainly have some splendid and unusual values in School Suits.

Strong, sturdy fabrics—tailored with double strength at every point where the strain comes. Suits built for duty.

Remember that "bargain" School Suits are generally an expensive proposition.

Price stands for but little until you see the quality attached.

**Wm J. Mulno**  
MEN AND BOYS CLOTHING  
RUSHVILLE, INDIANA

Just around the corner off Main street.

would become the beneficiary of any new temporary loan the state might make, Mr. O'Brien replied that he could not tell at this time. When asked whether the benevolent institution fund was again to be the recipient of funds to be derived from a new loan he replied that the benevolent institution fund is the one which represents the greatest drain on the state finances just now. The \$400,000 temporary loan in August was for the use of the benevolent institutions wholly, according to members of the state board of finance, but outside sources said it was understood the money was to benefit other funds as well.

Since the June settlement with the county treasurers, so far as the public has been informed by Myron D. King, deputy auditor of state, in whose office the books of the state board of finance are kept, about the only funds that were available for use in the general fund of the state was a balance of some \$170,000. To this, of course, other additions have been made since, but beyond a monthly statement, notable for its brevity-no word of how the state's general fund, from which all Taggart salaries flow, by the way, is getting along has been made public.

Many are worried considerably over the possible condition of this most important of the state's funds, and the coming action of the state board of finance with regard to the new temporary loan will be watched with interest, as few citizens of the state would care to see old General Fund annihilated. He has made such a good fight for certain of the Taggart Democrats in the last few years that, it is said, the state board of finance will do its utmost to keep him from bleeding to death.

Mr. O'Brien said today that within a few days, probably, the state officers would know just what the financial condition will be this month. Mr. O'Brien made no denial of the possibility of another big loan this month. Members of the state board of finance, it will be remembered, waxed sarcastic early in July when it was announced that nothing short of a financial miracle could prevent the state from having to borrow at least \$1,000,000 before the December settlement period. How far the September loan—if one is to be made—will bring the total temporary loans of the state toward the one million dollar mark, can not now be estimated. It is probable that this soon will be made known, however.

**What Our Neighbors Are Talking About**  
Cases Similar.  
(Columbus Republican.)

If it wasn't that all Europe is torn with the greatest war in history, the "war tax" which President Wilson, of the United States of America, is demanding levied would be a bond issue. Under Cleveland in a time of profound peace, it was necessary to issue government bonds to make up the deficit caused by the application of the democratic tariff measure. Now, under similar conditions—absolute peace and a democratic tariff measure—the necessity again arises to plug up a huge hole in the United States treasury and the European war is utilized as the reason. The coincidence is striking and it will be a hard task for the President and the democratic spellbinders to convince the voters to the contrary.

**HOW DEMOCRATIC TARIFF IS WORKING IN INDIANA**  
Madison, Ind., Sept. 10.—The Democratic tariff bill has had a disastrous effect on the manufacturing interests of this city.

The Eagle Cotton Mills, employing 250 people has closed indefinitely, as have the Yarn & Cordage Mills with 100 employees and the Melish Pearl Button Factory with 40 employees.

One of the significant features of the reports that have been made regarding the Republican organization meetings was the large attendance of former Progressives. There was not a single meeting that was not attended by from a half dozen to thirty former Progressives who are not active in the Republican organization. Their reports invariably were that there is now nothing left of the Progressive movement in Indiana but the professional Bull Moose agitators. In the Vermillion county meeting Clinton Charles Thomas who in 1912 was the Progressive committeeman in the only township in that county that was carried by Roosevelt, made a talk as an active Republican worker and expressed the opinion that there would not be over 5 of 6 Bull Moose votes cast in that precinct in November. Among the other former Progressives who were prominent in this meeting were John Stegely, former Progressive committeeman, L. F.

**Corns Quit, Pains Stop, With "Gets-It"**

Quit Plasters Salves and What-Nots.

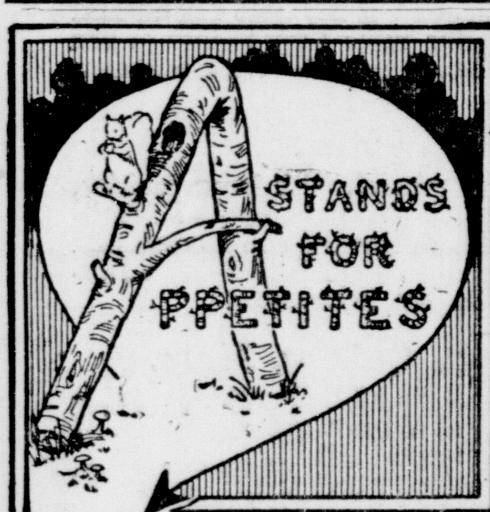

After using "GETS-IT" once you will never again have occasion for asking, "What can I do to get rid of my corns?" "GETS-IT" is the first sure, certain corn-ender ever known.

If you have tried other things by the score and will now try "GETS-IT," you will realize this glorious fact.

You probably are tired sticking on tape that won't stay stuck, plasters that shift themselves right off your corn, contraptions that make a bundle of your toe and press right down on the corn. Put two drops of "GETS-IT" on that corn in two seconds. The corn is then doomed as sure as night follows day. The corn shrivels. There's no pain, no fuss. If you think this sounds too good to be true try it tonight on any corn, callus, warts or bunions.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence &amp; Co., Chicago. "GETS-IT" is sold in Rushville by Thos. W. Lytle, and Hargrove &amp; Mullin.

**AGGIE ELEVEN HARD AT WORK**

Huskies Compose Squad at M. A. C. and Chances Are Bright For Great Showing This Fall.

**COACH MACKLIN CONFIDENT**

Number of Last Years' Veterans Are Back—First Game is Scheduled For Oct. 3.

(By United Press.)

East Lansing, Mich., Sept. 10.—This week ushered in the football season at Michigan Agricultural College. A squad of huskies who hope to make the Aggie eleven are hard at work each day at the club camp at Pine Lake. Others are arriving daily and within another seven days practically all of the men whom the M. A. C. team will be picked, will be going through preliminary practice.

Coach Macklin and Gifford, captain of the 1913 squad, are directing the activities. When the training season gets fully under way they hope to have a squad of more than 60 candidates from whom they can pick the men who will uphold the honor of the agricultural school on the gridiron this year.

Macklin is fortunate this year in having a goodly number of his veterans back in school and, aside from the quarterback position, only three positions on the team—all of them in the line—will have to be filled with new material. Early indications are that Macklin will attempt to work Blake Miller, one of the 1913 brilliant veterans, in at quarterback. This position was filled last year by Gauthier, who graduated last June. Blake Miller played at half last year, but was given a brief try-out at the quarterback position during the spring training this year. So well did he perform in the new place, that Macklin determined at that time to give him every opportunity to make good at quarter.

Jerry De Prate, of Iron Mountain, Mich., who played on the M. A. C. squad in 1912, probably will be depended upon to do the kicking this year, replacing Leonardson, a last year's graduate. DePrate has had considerable experience in punting work and is already hard at work training his booting toe.

Other early arrivals at the camp are Hewitt, "Carp" Julian, Blake Miller, Henning, Chadcock and Vaughn.

The chief source of worry to Coach Macklin this year is likely to be the line. New men must be developed to replace Capt. Gifford, at right tackle, and Leonardson and McCurdy at the guard positions. A string of recruits are fighting for these positions, chief among them being Straight, McClelland, Loveland, Kutzworth and Frimodig.

The first game of the season is scheduled for October 3, Michigan will meet the Farmers on October 17.

**JONES IN MONEY IN THREE RACES**

Rushville Trainer Wins One Race, Second in Another and Divides Second And Third. in Third.

**MAKES SENSATIONAL DRIVES**

Always a Contender at Finish, he Noses Out What Looked to be Winners in Several Heats.

Harrie Jones, the Rushville trainer, was a contender in every race but one on the Wednesday's program at the state fair in Indianapolis, and he did not have a horse in that one. He won first in one race, second in another and divided second and third money with another entry in the third event.

The Rushville driver was always close to the leader when they finished. The tale would probably have been different in the 2:13 trot, in which Genteel Zoe, his horse, and Maxine, divided second and third, had not Jones met with an accident on the back stretch in the first heat. He drew the pole and held it around the first turn. Just then the front boots broke and frightened Genteel Zoe. She bolted and ran. It was with the greatest difficulty that he prevented an accident. Mr. Jones pulled the mare to the outside of the track and finally quieted her, but had to content with last position.

The 2:09 pace was the most hotly contested race on the program. There were five heats but still no one horse won three heats. Although Moonbeam, Jones' entry, won only one heat, she was somewhere closely at the finishes. May E. Pick, the Kansas mare who beat Single G., the first time in eleven starts, was the horse that caused the downfall of Moonbeam. She won the first heat only a half length ahead of Moonbeam, who had drawn the pole but lost it to May E. Pick. The second heat furnished a thriller at the finish. Jones made a drive on the home stretch, coming from fourth position as he entered the stretch, that shoved Moonbeam a nose ahead of May E. Pick as they went under the wire.

In the third heat of this race Moonbeam, with the pole, showed them the way around the track, but was outbrushed on the last leg of the mile and lost to May E. Pick by a neck's length. The fourth heat was won by a "dark horse," Lillian W., which had not shown well previously. She won largely because she got out in front of the field. By hard driving, though, Jones managed to come from last position at the last turn and finish third. The most exciting finish on yesterday's card was that of the third heat of this race. Harry Jones didn't get a very good start with Moonbeam. Lillian W. with the pole, held her position, with May E. Pick crowding her all the time. The speed of Moonbeam was reserved for the home stretch and it was almost equal to the occasion.

These three horses went under the wire neck and neck and it appears that the judge had to have a microscope to pick Lillian W. first, May E. Pick second and Moonbeam third.

Harry had everything his own way in the 2:17 pace. He won in three straight heats with The Importer. Roy Underwood, an Illinois horse was always crowding but could never quite win a heat. In the second heat Hawkins, driving Roy Underwood, tried to take the pole position from The Importer but was not equal to the occasion.

After the accident to Genteel Zoe in the first heat of the 2:13 trot, she came back strong and proved that she would be a contender. Jones raced her fifth to the last turn in the second heat and then made a drive. He passed all but two horses and was right alongside them when they went under the wire. In the third and last heat Genteel Zoe trailed the field of six horses and with another drive on the home stretch Jones put her into second position.

The time in all three of the races the Rushville man was in was good.

**Best by Test, Fair Promise 5c Cigar****EAT LESS MEAT  
IF BACK HURTS**

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

# GERMANY IS DETERMINED

America Can Not Realize Feeling of all Germans Whose Motto is, "Fatherland or Death."

## GREAT OFFENSIVE MOVEMENT

No One Knows Whether Paris is Real Objective—France is Outgeneraled.

BY KARL H. VON WIEGAND.  
(By U. P. Staff Correspondent.)

Aix La Chappelle, Germany, August 29, (By Courier to New York via Rotterdam, Holland, to escape the British censor.)

America has not the faintest realization of the terrible carnage going on in Europe. She cannot realize the determination of Germany, all Germany—men, women and children—in this war. The German empire is like one man. And that man's motto is "Vaterland oder Tod!" (Fatherland or death).

English news sources are reported here as telling of the masterly retreat of the allies. Here in the German field headquarters where every move on the great chess board of Belgium and France is analyzed, the war to date is referred to as the greatest offensive movement in the history of modern warfare. This city is just behind the apex of a wonderful triangle. This triangle is the German offensive lines closing in on the British-French-Belgian lines. It is moving with relentless swiftness, hammering, hammering at every point. It is driving the allied armies south and west toward Paris. Yet no one here knows whether Paris really is the objective. The French offensive is to be crushed. The British are to be driven away from their seacoast bases. After that Paris will be taken, but before then there will be fought the greatest battle the world has ever witnessed. Tonight the German patrols are threatening Ostend. Part of the right wing has been pushed Southward beyond Lille. The combined British and French forces have been defeated with heavy losses at Maubeuge. The army of the crown prince has taken the fortress of Longwy by assault after demolishing it by bombardment. And by this movement and the capture of Lunéville, near Nancy, the French center has been pierced. From Lille in the west to Belfort, far in the southeast the French lines have been thrown back in utter confusion and the Germans are in force on French soil.

French and Belgian prisoners admit that the French have been outgeneraled. Up to tonight there has not been a real French victory. Their forces were trapped in Alsace-Lorraine. Realizing that the French temperament was more likely to be swayed by sentiment than by stern adherence to the rules of actual warfare, the German staff selected its own battle line and waited. The French did not disappoint. They rushed across the border. They took Altkirch with little opposition. Then they rushed on to Mulhausen. Through the passes in the Vosges they poured, horses, artillery, foot—all branches of the service. Strassburg was to fall and so swift was the French movement that lines of communication were not guarded.

Then the German general staff struck. Their troops from Searburg, from Strassburg and from Metz under the command of General Von Heeringen attacked the French all along the line. They were utterly crushed. The Germans took ten thousand Frenchmen prisoners and more than 100 guns of every description. Alsace-Lorraine is now reported absolutely cleared of French troops.

The German offensive plans were well laid. No army that ever took the field was every so mobile. Thousands of army automobiles are in use. Each regiment has its supply. The highways were mapped in advance. There was not a cross roads that was not known. Even the trifling brooks had been located.

Nothing had been left to chance and the advance guard was accompanied by enormous automobiles filled with corps of sappers who carried bridge and road building materials.

How well this worked was shown when Namur, which it was boasted would resist for months, fell in two days. The terrible work of these great Krupp weapons, whose existence had been kept secret, is hard to realize. One shot from one of these guns went through what was considered an impregnable wall of concrete and armored steel at Namur, exploded and killed 150 men. And aside from the effectiveness of these terrible weapons Belgian prisoners with whom I have talked here, men who were in the Namur forts, declare their fire absolutely shatters the nerves of the defenders, whose guns have not sufficient range to reach them. The armies of Crown Prince Frederick Wilhelm and of Crown Prince Rupprecht of Bavaria are reported here as moving in an irresistible manner into France. In a three day battle below Metz it is declared the French were terribly cut up and forced to retreat in almost a rout. It is declared that in this engagement the French lost 151 guns and were unable to make a stand against the victorious Germans until they had passed inside of their secondary line of defense.

This city is one of the principal centers for the wounded. The losses, according to the wounded of both sides, are appalling. This is admittedly the case on the German side as the Germans are constantly on the offensive and have refused to wait to besiege the entrenched positions but have taken them by direct charges. French and Belgian prisoners I have talked with declare nothing up to the present time has stopped the Germans.

"It makes you sick to see the way the Germans literally walk into the very mouth of the machine guns and cannon spouting short fused sharpnel that mow down their lines and tear great gaps in them" said a Belgian major who was badly wounded. "Nothing seems to stop them. It is like an inhuman machine and it takes the very nerve out of you to watch it."

Trainload after trainload of wounded pass through here. Prisoners as well as German wounded are sent to the concentration camps and later the German wounded are sent home to get ready for further service. Although lists of dead are published, the last one filling three and on half pages of a newspaper in small type there are not even approximate figures obtainable as yet of the number of German dead.

Describing the fighting one wounded soldier said to me: "It was indescribable carnage. We met hand-to-hand. It was bayonet to bayonet, rifles clubbed, automatic pistols and swords. The dead were piled like barricades everywhere. Blood ran like brooks. It seemed like a horrible nightmare. Here and there in the pile of mutilated corpses a hand would move, a leg twitch convulsively. A mass of bloody flesh that once was a man would murmur for water. But there was not time to aid. We had to fight until we won. Then we tried to save life. But it was usually to late."

## NEW OFFICERS ELECTED

Carthage and Lewisville Men Will Serve Another Year.

The Eastern Indiana Holiness Association has elected officers for another year, re-electing the Rev. John T. Hatfield, president. Rev. John M. Winer and Grover VanDyke were elected vice-president; Milo Goodpaster, secretary; John O. Mitchell, treasurer, and John Butler of Dublin; John M. Binford, of Carthage; David J. Cope, of Lewisville; William W. Webster, of Knights-town; John O. Fort, of Willow Branch, trustees. Rev. Maurice Barrett was elected corresponding secretary by the board of trustees.

These officers will be in charge of the affairs of the association for the next year and until after the next annual meeting.

## SILENT ABOUT WRECK OF LINER

London War Office Has Nothing to Say About Mishap Befalling Oceanic Off Scotland Coast.

## CAUSE OF WRECK A MYSTERY

Formerly Largest Merchantman on Seas Taken Over as Naval Reserve Cruiser Since War.

(By United Press.)

London, Sept. 10.—The war office and the official press bureau were strangely silent today as to details of the wreck of the White Star line ocean greyhound Oceanic off the North coast of Scotland Tuesday. The statement issued said merely that the big liner was wrecked and a total loss and that all officers and crew were saved. Cause of the sinking of the ship, which had been taken as a naval reserve cruiser, was still a mystery here today.

The Oceanic was considered the finest of the White Star liners. In many ways she was a more palatial boat than some of the larger and later ships which plied between America and England. When she started on her maiden trip to New York in 1899, she was the largest merchantman on the high seas.

When the Oceanic was building, Thomas Ismay, father of J. Bruce Ismay, former president of the White Star Line, gave orders that money was not to be spared in fitting the ship. No ship since built had had more elegant fitting, the furniture in the great dining room being of solid hand-carved oak, decorated with gold.

Two hundred thousand dollars was spent in gilding the dining saloon.

Up to a short time ago the May sailing of the Oceanic was known as the "millionaires' trip" because of the large number of wealthy Americans who sailed aboard her at that time. She was a favorite with the late J. P. Morgan, Cornelius Vanderbilt, W. C. Whitney, Philip Armour, the late Col. John Jacob Astor and other multi-millionaires. Three years ago the owners of the Oceanic spent a quarter of a million dollars in refurbishing her. The original cost was about \$4,500,000 and she was said to be the most graceful liner in the service.

The Oceanic was a 21 1-2 knot boat of 17,274 gross tonnage. She was 706 feet long, had 68 feet beam and 50 feet depth of hold.

## Much Better Than Others

Marvelous wheat was sowed on 2½ acres of ground on October 1, last fall, and it grew well. It went through the winter better than the average wheat. In the spring it outgrew all other varieties. The straw averages about 4 feet high, stands up well. I estimate the yield at 30 bushels an acre, which is much better than other varieties of wheat. I am well pleased with the Marvelous wheat, but will sow it earlier this fall.—J. C. Gilbert, Dublin, Ind. For sale by, ONEAL BROS. 151t6.

Take Hall's Family Pills for constipation.

## NEEDY PUBLIC WILL SUFFER

If War Continues Imported Drugs Will go to Great Level, From Indications

## GROCERIES HOLD STEADY

From all Indications There Will be Large Bean Crop—No Change in Coal Market

It looks as if a long continuation of the European war will send prices of the drugs for which America is dependent upon foreign countries, up to such a level that the needy public will suffer. A few of these, for which there is general demand, have already made several large jumps in price. Camphor, which is imported from Japan, has risen from 75 cents to \$1.25 a pound wholesale, in Indianapolis. Extract of licorice, used in many medicinal compounds, shows a rise of more than 50 cents in the last few days, jumping from 28@30 cents to 80 cents. Licorice root comes from southern Europe. Carbolic acid becomes more expensive as the war drags on, and is now selling for 49@57 cents, a rise of 3 cents in the last week. It is imported largely from Germany. Glycerine is up 2 cents, at 30 cents. The available supply of cream of tartar is said to be contracted for by the large baking powder companies, and the open market is nearly cleaned out. The baking powder companies anticipating a shortage obtained contracts for most of the supply. The basic element in cream of tartar come from the wine-making countries of Europe.

Rushville grocery and canned goods prices continue steady, with business quiet. The price of beans is slightly lower. Select, hand-picked navy beans are selling at \$3.25 a bushel, a decline of 10¢. Kidney beans continue to sell at \$4.75 a bushel, while Limas are offered at 9½ a pound, being ½¢ cheaper. This change is due to the 1914 crop, which is large and nearing its harvest time. The old supply is practically used up, but this season's crop will soon be on the market, the first two weeks of October being the usual ripening time.

No further advances have been made in the retail coal prices. The unsettled labor conditions in some mining regions have caused no change in wholesale prices, and dealers say that with the exception of the rises resulting from the heavy demand in winter, especially if the season proves to be a cold one,

# Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

### From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. RICHMOND, 199 Waldo Street, Providence, R. I.

### A Minister's Wife Writes:

CLOQUET, MINN.—"I have suffered very much with irregularities, pain and inflammation, but your wonderful medicine, Lydia E. Pinkham's Vegetable Compound, has made me well and I can recommend the same to all that are troubled with these complaints."—Mrs. JENNIE AKERMAN, c/o Rev. K. AKERMAN, Cloquet, Minnesota.

### From Mrs. J. D. Murdoch, Quincy, Mass.

SOUTH QUINCY, MASS.—The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. JANE D. MURDOCH, 25 Gordon St., South Quincy, Mass.

**Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.**

STATISTICS ON  
MILK BOTTLES

Figures Show That Average "Life" is From Six to Fifty Trips—Not Lost or Broken

## DEPARTMENT INVESTIGATES

Gypsy Moth Was Imported to This Country From France and Proved to be Great Pest

(By United Press)

Washington, Sept. 9.—Vital statistics on glass milk bottles brought to Mrs. American Housewives' front stoop every morning a new "stunt" of investigation by the Department of Agriculture. Milk bottles are short-lived, according to the results of the inquiry. Figures furnished by fifty dairymen indicate that the "life" of a milk bottle is from 6 to 50 trips. The average is only 22½ trips.

"If these figures represent the average condition," the Department states, "the average dairyman would have to obtain a new supply of bottles every 22½ days. If he delivered 10,000 bottles daily and they cost him 3½ cents each his daily expense for bottles would be \$15,575.75 a year." Query—What would become of the profits in the crash of glass?

"These bottles are not lost or broken," the federal investigators reported. "Many of them are merely strayed." The hunt for the lost, stolen or strayed bottles is one of the busiest experiences of modern high-power dairying, according to the conclusions of the Department.

"Some of the bottles get into the hands of other dealers," the official statement of the Department naively opined. "Some are dumped into ash barrels by persons careless or ignorant of their value. One million five hundred thousand bottles were rescued from city dumps during three years by the milk bottle clearing house of one city."

Milk bottle clearing houses have done a great deal to reduce the losses in bottles. The clearing house helps the dealer to recover his own bottles. Ash men and others are paid one fourth to one half cent for each bottle returned.

The devastating career of the "gypsy" and "brown tail" moths are the subject of an interesting investigation recently completed by Dr. L. O. Howard of the National Geographic Society. That the entrance of the gypsy moth into this country is the only case on record where a pest was deliberately imported, was stated by Dr. Howard. According to his information the gypsy moth was brought to this country for experimental purposes by a French professor of astronomy in a New England university.

The brown tail moth came to this country in the ordinary course of commerce. From 1892 to 1900 both species were confined to Massachusetts, where a bitter fight was waged.

ed against them by the state. For five years thereafter they were apparently unmolested except by private individuals. Since 1905, however, Massachusetts has been joined in an anti-moth campaign of extermination by boards of New Hampshire, Maine, Rhode Island and Connecticut, into which states the moths migrated.

Today the United States government is aiding in the campaign. Removal of trees favored by the moths in the drastic "cure" being applied in many localities. The brown tail moth is principally abnoxious because of its presence in the New England summer resorts. The moths cause what is known as "brown tail rash." The hairs of the brown tail caterpillar are finely barbed and brittle. Where they come in contact with human skin, they enter the pores, break off and cause severe irritation. Parasites which attack the moths infested have been imported from South and Central America in the attack.

Instructions to farmers on how to select good crimson clover seed are available today as a result of endeavors of the Department of Agriculture.

Milk bottles are short-lived, according to the results of the inquiry. Figures furnished by fifty dairymen indicate that the "life" of a milk bottle is from 6 to 50 trips. The average is only 22½ trips.

The official advice is to select only seed which is free from any brownish color, although old seed shows varying degrees of brown according to age and storage conditions.

The brownish tinge is an indication of poor germination—the darker the color the poorer the germination. The seeds which show a light brown hue should be tested before planting and no brown seed should be used at all unless it shows well germinating tests.

Clover seed loses its vitality rapidly and imported seed is not regarded highly by the Department, because of its age before getting into agricultural channels here. Native seed should be secured whenever possible, the Department experts declare.

Since November 1, 1913, three million three hundred twenty nine thousand pounds of crimson clover seed have been imported mostly from France and Austria, where the harvest season is the same as in this country. That the war will cut off this source of foreign supply is believed by department heads but is not expected to cause any seed shortage.

Some of the bottles get into the hands of other dealers," the official statement of the Department naively opined. "Some are dumped into ash barrels by persons careless or ignorant of their value. One million five hundred thousand bottles were rescued from city dumps during three years by the milk bottle clearing house of one city."

Milk bottle clearing houses have done a great deal to reduce the losses in bottles. The clearing house helps the dealer to recover his own bottles. Ash men and others are paid one fourth to one half cent for each bottle returned.

## WAR FEVER DIES DOWN IN GARY

## Foreign Population of Northern Indiana City Tilted Lid When it

Tilted in Europe

## FIFTY-EIGHT NATIONALITIES

Since Last Election City Has Become Acquainted With Itself—Make Good Citizens

(By United Press)

Gary, Ind., Sept. 10.—The war fever has died out in Gary because none of the would-be fighters can get back to the old country, but when the lid was tilted off in Europe it came off in Gary too. It's the same way in Gary with all these wars.

The new-born steel city, now the biggest in the Calumet manufacturing region, harbors some 58 nationalities, and when ever there is trouble brewing abroad there are parades and speech-making on the shores of Lake Michigan.

The population of Gary comes from Abyssinia to Zanzibar. A recent census of nationalities taken by the Indiana Steel Co., of the men in its employ showed one better than the 57 varieties, and doubtless the American Sheet and Tin Plate and American Bridge companies could have added a couple of more tongues. Seventy-five per cent of the men in the steel plant, during normal times, are foreigners.

Clover seed loses its vitality rapidly and imported seed is not regarded highly by the Department, because of its age before getting into agricultural channels here. Native seed should be secured whenever possible, the Department experts declare.

Since November 1, 1913, three million three hundred twenty nine thousand pounds of crimson clover seed have been imported mostly from France and Austria, where the harvest season is the same as in this country. That the war will cut off this source of foreign supply is believed by department heads but is not expected to cause any seed shortage.

Some of the bottles get into the hands of other dealers," the official statement of the Department naively opined. "Some are dumped into ash barrels by persons careless or ignorant of their value. One million five hundred thousand bottles were rescued from city dumps during three years by the milk bottle clearing house of one city."

Milk bottle clearing houses have done a great deal to reduce the losses in bottles. The clearing house helps the dealer to recover his own bottles. Ash men and others are paid one fourth to one half cent for each bottle returned.

The devastating career of the "gypsy" and "brown tail" moths are the subject of an interesting investigation recently completed by Dr. L. O. Howard of the National Geographic Society. That the entrance of the gypsy moth into this country is the only case on record where a pest was deliberately imported, was stated by Dr. Howard. According to his information the gypsy moth was brought to this country for experimental purposes by a French professor of astronomy in a New England university.

The brown tail moth came to this country in the ordinary course of commerce. From 1892 to 1900 both species were confined to Massachusetts, where a bitter fight was waged.

**GERMAN PROTEST BEFORE WILSON**

Second One Direct From Kaiser Complains of Uses of Dum dum Bullets by the Allies.

**OUTRAGES ARE ALLEGED**

Treatment of Germans by Belgians is Cause For Complaint—to Fore-stall Belgian Visit.

Washington, D. C., Sept. 10.—Kaiser Wilhelm's message to President Wilson protesting against alleged use of dum dum bullets by the allies and the alleged outrages by the Belgians against the Germans was today before the president according to admission from a high office source.

Although the message, sent by cable from Berlin, was in the state department for some hours before it was given to President Wilson, administration officials including Secretary Bryan, shrouded its receipt in mystery.

This was the second message direct from Kaiser Wilhelm. The first characterized by a high diplomatic source as "in complaining tone," explained that the kaiser was unwillingly drawn into the conflict and voiced a protest against anti-German sentiment in this country.

Diplomats here today saw in the second message a crafty move by the kaiser to forestall the criticism which the Belgian commissioners, now enroute here, will voice to President Wilson. The President will receive them, probably early next week. Their protest however, will merely be heard. No action on the part of this government is anticipated nor did the kaiser's last message call for any action.

**ASKED TO INCREASE ARMY.**

(By United Press.)

London, Sept. 10.—Premier Asquith today asked by Parliament to increase the regular army by the addition of 500,000 men. It was expected that this action would be taken immediately. In making the request the premier explained that it was the intention of the government if this number proved insufficient to end the war to ask for further increases from time to time.

Frank Hubert, living on the Charles Lyons farm north of here, is seriously ill with typhoid fever.

**EFFICIENCY IN THE SETTLEMENT OF AN ESTATE**

*It is of great moment to every man, when providing for the disposition of his property, that he appoint the most efficient Executor.*

In recent years the custom of appointing as Executor an individual, such as a friend or relative, has been rapidly disappearing. Owing to the great change in business and financial methods, requiring the Executor to have a wide knowledge of these affairs, the Trust Company is the ideal Executor or Trustee, since it is not subject to the vicissitudes of individual life or individual judgment.

**SULLIVAN PILES UP BIG MAJORITY**

Illinois Democratic Candidate for Senate, Opposed by Wilson and Bryan, Wins in Primaries

**JOE CANNON IS NOMINATED**

He is Named Over Dr. Elmer B. Cooley by Vote to Nearly Two to One.—McKinley Nominated.

(By United Press.)

Chicago, Sept. 10.—Rodger C. Sullivan, former national committeeman, won the Democratic nomination for the United States senate in yesterday's Illinois primaries by a plurality of from 50,000 to 80,000 over Congressman L. B. Stringer, his leading opponent in complete returns showed today. Stringer, who had the support of Secretary of State Bryan, Senator Lewis, Governor Dunne and Mayor Harrison, of Chicago, was snowed under in Chicago and Cook county where Sullivan rolled up a plurality of 50,000, and apparently was beaten in the majority of the congressional districts of the state.

United States Senator Lawrence Y. Sherman was renominated by the Republicans by a plurality estimated at 40,000 over William F. Mason, former senator from Illinois. Raymond Robins, Progressive, was unopposed for the Bull Moose nomination.

"Uncle Joe" Cannon, ex-speaker of the house, was given the Republican nomination for congress in the eighteenth district by a vote of nearly two to one over Dr. Elmer B. Cooley, his opponent. William B. McKinley, former Taft leader, and George E. Foss, another conservative Republican both former members, have been nominated for congress by the Republicans. James E. Mann, Republican floor leader, was renominated in the second district without opposition.

Every member of the Illinois delegation in the house has been renominated, excepting Representatives Hoxworth, Stringer and Gorman, all Democrats who did not seek renomination. James T. McDermott, Democrat, resigned his seat from the Chicago stockyards district while under fire in the lobby investigation and sought vindication in a fight for re-nomination, apparently has been defeated.

Democrats apparently cast more than half the vote in the state-wide primaries. The Republican vote was small and in the Progressive ranks, where there were few contests, a very light vote was cast. The count, uncompleted today, was very slow owing to the enormous ballot.

**JERRY KLOTZ****Many New Fashions Here!**

Already the store unmistakably shows the influence of the fast approaching season. We are receiving new merchandise almost hourly and we believe we have been unusually fortunate in receiving some of the recent arrivals.

**AN ALMOST INFINITE VARIETY**

of styles of fabrics, and garnitures is offered. In broadcloth, poplin, fine serge and gabardine, these new garments come cleverly trimmed in silk, fancy velvets, or braid or fur. The garments illustrated here definitely express one or two of the new models, they are simple yet decidedly effective. We are showing a great many suits in the new brown—Tate-de-negre, and in black, navy blue, green and wisteria.

Also special showing of Misses' and Children's Coats, Dresses and Sweaters. We will show you the results of our endeavors to provide the school going girl with her needs in such a way as to win her heart and her mother's appreciation.
